## Designed For Aussie Business Owners Fighting COVID-19

With 2021 just round the corner, it's time to give serious thought to innovation in business.

The positive effects of innovation on business profitability is unmistakable when looking at big businesses like Apple or Amazon who have used innovative thinking to enhance their business model.

This webinar provides key insights on innovative thinking and technology specifically for small and medium businesses, and practical day-by-day steps that can be implemented immediately for best results.

## What You'll Learn at the Webinar

- // 5 Innovation secrets for Small and Medium Enterprises (SME)
- // Innovation in 2020 for SME, practical day-to-day steps
- // Innovation success factors
- // Exponential technologies for innovation that SMEs can ride on
- // The top 5 Technology waves to take a ride on
- // Tools for small business innovation
- // Common innovation mistakes made by SMEs
- // SME Innovation success stories – lessons for your business
