

DEAD or OLD BATTERIES?

SAFE BATTERY DISPOSAL

Three easy steps:

- 1 Keep batteries and battery-powered items **out** of kerbside bins and set them aside to take to a drop-off point for safe disposal.
- 2 Place in a snug, sealable bag or non-metallic container to keep them secure, and tape the terminals for safety.
- 3 Check [Recycle Mate](#) for a location near you and drop them off.

Scan the QR code to see what you can drop off!

Examples of batteries or battery-powered items:

- ✓ Household batteries
- ✓ Mobile phone batteries
- ✓ Car batteries
- ✓ eBike batteries
- ✓ Vapes
- ✓ Laptop batteries
- ✓ Power tool batteries
